SOFTWARE FOR INDUSTRIAL AUTOMATION

INDUSTRIAL AUTOMATION / PORTFOLIO

# Beckhoff TwinCAT

Plant control migration, software development for PET machinery and remote support for Beckhoff systems.

PLC / HMI MIGRATION

## Small hydroelectric plant

Migration of the control software from TwinCAT 2 to TwinCAT 3 and an update to the operator interface for plant monitoring and control.

PLC / HMI DEVELOPMENT

## Software for PET machinery

Development of machine control logic in TwinCAT 2 and operator visualisation in zenon for PET processing machinery.

SOFTWARE UPDATES / REMOTE SUPPORT

## Support for PET blow moulding machines

Targeted updates to PLC and HMI software on PET blow moulding machines, with remote troubleshooting and operational support.

The case studies are anonymised.
